The following 18 colts are consigned by Jerry Dodds of Alberta Canada. We have been raising Draft and crossbred colts for over 25 years. We have had great success with these colts going on and becoming great riding, driving and pack horses. All the colts were weaned in October and have been on great feed ever since. They were all just recently dewormed and deloused. We are very confident that all the colts have been through the colds and distemper and everything is very healthy.
